

# INVOICE FINANCE

## Why choose invoice finance?

If you're looking to boost your cash flow quickly, choosing invoice finance can be a smart move. With invoice finance, you can unlock the funds tied up in your outstanding invoices, enabling you to access the cashflow you need quickly instead of waiting weeks or even months to be paid.

## Invoice Factoring

Firstly, we will set up your facility, ensuring that all aspects are tailored to meet your specific requirements.

Once your facility is in place, whenever you issue an invoice, we will advance up to 85% of its value, allowing you to address any pressing financial needs or invest in growth opportunities.

The best part? When your customer pays us, we swiftly transfer the remainder of the invoice value to you, minus our fees.

With our professional approach, our bespoke solutions assist in optimising financial stability for our clients, allowing our clients to focus on what you do best.

## Benefits for your business

- ✓ Unlocks cash from your unpaid invoices.
- ✓ Gives you the freedom to do what you do best.
- ✓ Personal service from a dedicated client manager.
- ✓ Bespoke funding solution for your business.
- ✓ Takes away the headache of credit control.
