

INVOICE FINANCE

For Temporary Recruitment

In the dynamic temporary recruitment sector, efficient cash management is paramount for agencies navigating market fluctuations and meeting evolving client expectations.

Invoice finance is like having a cashflow superhero swoop in to save the day.

Invoice Factoring

Invoice finance is like having a financial superhero in your corner. It allows businesses to unlock cashflow otherwise tied up in unpaid invoices.

Instead of waiting for customers to pay, we can pay your business within 24 hours, ensuring cashflow is available for your business' expenses.

With stable cashflow, growth is inevitable.

Here's how it works:

- 1) You complete your delivery and invoice your customer.
- 2) We advance you a significant proportion of the invoice value.
- 3) When your customer pays us, you receive the remainder.

It's that simple.

Benefits for your business

- ✓ Outsourced credit control.
- ✓ Gives you the freedom to do what you do best.
- ✓ Personal service from a dedicated client manager.
- ✓ A facility that grows with your business.
- ✓ Pay your temps promptly.
